Date: 20th Oct 2023

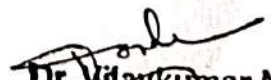

Duration: 2 days

Outcomes: Aptitude training can lead to several positive outcomes. Aptitude training often involves practicing various types of problems and puzzles, which can enhance your ability to analyze situations and find solutions efficiently. Aptitude training challenges you to think logically and critically, helping you develop a structured approach to problem-solving and decision-making. Enhanced numerical ability. Aptitude tests are often timed, so training can help you learn to manage your time wisely during assessments, ensuring that you can complete tasks within the given time constraints. Overall, aptitude training can equip you with valuable skills and strategies that are essential for success in various academic, professional, and personal endeavors.

Subject: Letter of acknowledgement and appreciation.

Respected Sir,

We are extremely thankful to Mr. Shreyas Rane for conducting workshop on Design and Simulation of BLDC/PMSM motor used in Electric Vehicle Application. for our Final Year Electrical Engineering students for Electrical Machine Design subject on 31st August 2023. This workshop made our students aware of practical approach of designing a motor using software.

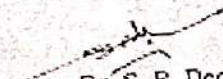

We are grateful for giving your valuable time for conducting workshop and making aware of various machine design aspects.

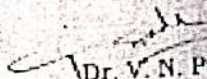

Looking forward for your future co-operation.

**Sub: Invitation for conducting Workshop on Design and Simulation of
BLDC/PMSM motor used in Electric Vehicle Application.**

Respected Sir,

This is to invite you for delivering one day workshop on the topic "Design and Simulation of BLDC/PMSM motor used in Electric Vehicle Application" for the subject Electrical Machine Design for the final year Electrical Engineering Students.

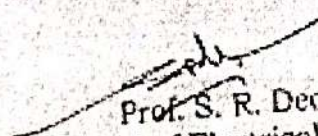

The subject includes designing of 3 phase transformer, 3 phase induction motor, synchronous machines, EV grade Induction motor and computer aided design. We request to guide our students regarding the practical approach for designing and simulation of BLDC/PMSM motor used in electric vehicle application.

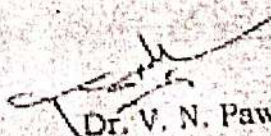

We will be highly obliged for acceptance of invitation for delivering workshop.

Thanking you

Respected Sir/Madam,

It is our great pleasure to invite you for conducting an online workshop on "Design of DC-DC Converter and VSI" for final year electrical engineering students of our institute.

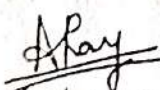

The details of the workshop session are as follows:

Date	September 13, 2023 (Wednesday)
Timing	11:00 am to 4:00 pm

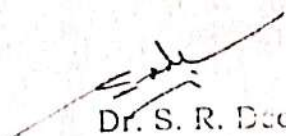

Your guidance will act as a catalyst to our students in executing their projects and mini-projects which is a part of our academic curriculum and future work. We will be highly obliged for acceptance of our invitation for conducting the above mentioned workshop.

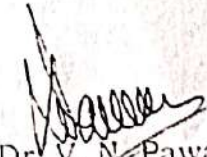

Thanking you.

Respected Sir/Madam,

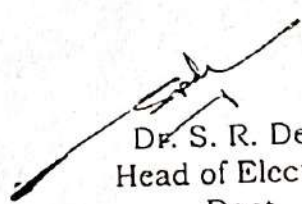

We are extremely thankful to you for conducting the online workshop on "Design of DC-DC Converter and VSI" for our final year electrical engineering students on 13th September, 2023. This session helped students in getting a detailed understanding of methodology used in design of DC-DC Converters and voltage source inverters.

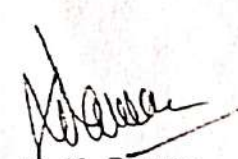

We are extremely grateful to you for giving your valuable time for conducting this online Workshop Session on design of power electronic converters for our students. We expect similar sessions to be conducted in our institute in future.

Thanking you,

Online Workshop on "Design of DC-DC Converter and VSI"

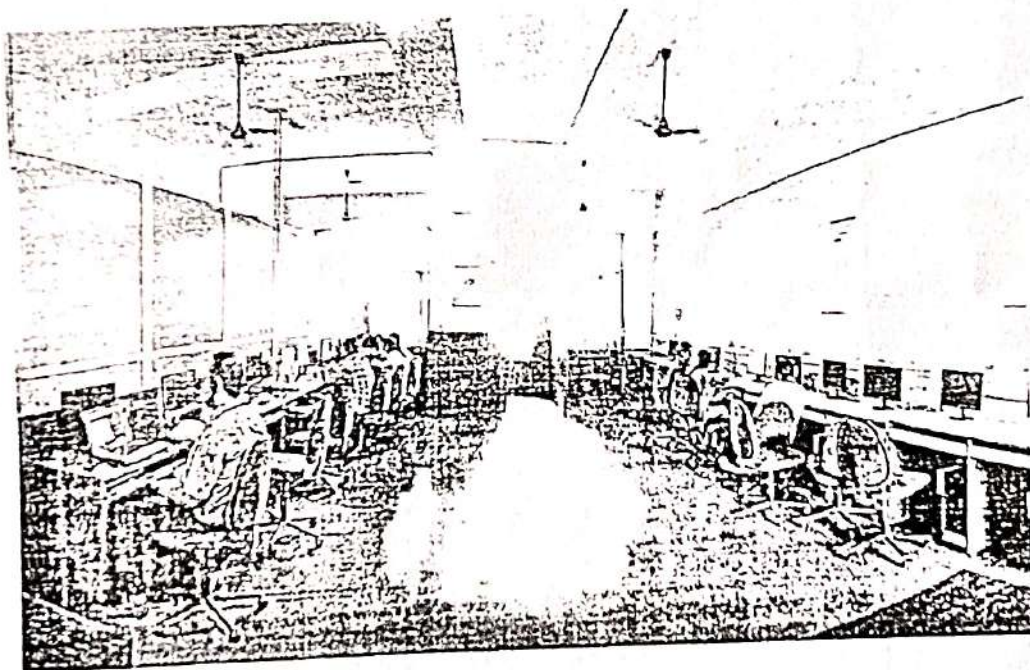

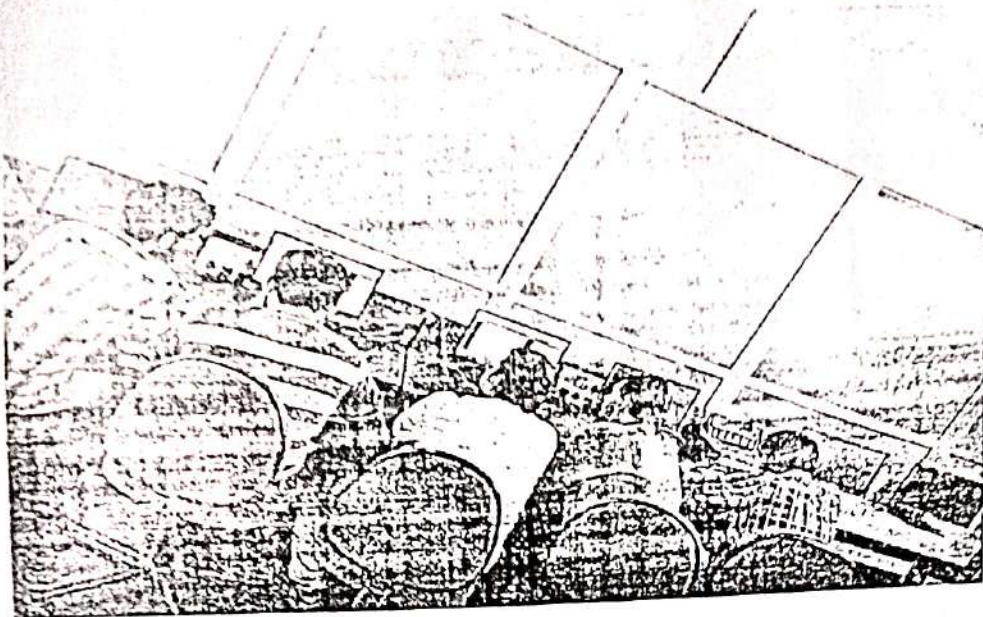

Date : 13th September, 2023

Total number of Students attended the workshop - 20

The Electrical Engineering Department had organized a one day online workshop on "Design of DC-DC Converter and VSI" for final year students on 13th September, 2023. The speakers of the workshop were Dr. Jayant. J. Mane and Mr. Nikhil. N. Kasar associated with Finolex Academy of Management and Technology, Rasayani. It was a very interactive session in which our students learned the steps of designing boost converter and half-bridge voltage source inverter along with use of its hardware components.

- The workshop featured hands-on sessions where participants had the opportunity to explore the principles of EV design, battery technology, and charging infrastructure. Through interactive demonstrations, attendees gained a deeper understanding of how EVs operate and their potential benefits in reducing carbon emissions and dependence on fossil fuels.

- Expert speakers shared their knowledge and expertise on topics ranging from EV battery management systems to regenerative braking technology, offering participants valuable insights into the intricacies of EV engineering and design.

- Practical exercises and case studies were integrated into the workshop curriculum, allowing participants to apply their newfound knowledge to real-world scenarios and challenges in the EV industry. From designing efficient charging networks to optimizing vehicle performance, attendees were encouraged to think critically and creatively about the future of transportation.

- The workshop culminated in a lively discussion on the opportunities and challenges facing the widespread adoption of EVs, including policy considerations, infrastructure investment, and consumer acceptance. Participants left feeling inspired and empowered to contribute to the ongoing transition towards a more sustainable and electric future.

- The **Marathi Bhasha Din** event at our college was a vibrant celebration of Maharashtra's cultural heritage and linguistic diversity. From the moment attendees stepped onto the festively adorned campus, they were immersed in an atmosphere filled with the rhythmic beats of traditional dholki and the colorful hues of rangoli adorning pathways.

- The event commenced with an inaugural ceremony graced by esteemed guests from the literary and cultural spheres, who emphasized the profound significance of the Marathi language in preserving the ethos of Maharashtra. Thought-provoking

keynote addresses highlighted the historical evolution of Marathi literature and its enduring influence on society.

- In addition to discussions, the event also hosted competitions to showcase participants' creativity and talent. A poetry competition provided a platform for budding poets to express themselves in Marathi, while a poster-making contest allowed artists to visually represent the beauty of Marathi culture and language.
- As the day drew to a close, participants were awarded certificates of participation, acknowledging their involvement in celebrating and promoting Marathi language and culture. The event left attendees feeling inspired and proud, reinforcing the importance of preserving and cherishing Maharashtra's linguistic and cultural legacy.

Report of Event Conducted

Event Name:	Innovation/Prototype Validation – Converting Innovation into a Start-up
Objective:	The objective of the seminar is to educate, inspire, and equip participants, especially engineering students, with practical knowledge about the journey from concept to commercialization. It aims to foster engagement and prepare attendees for future technology-based entrepreneurial ventures
Speaker:	Prof Nitin P Chawande is an accomplished Electronics and Computer Engineering expert. Currently serving as the Innovation Cell Incharge and President of the Institute Innovation Council (IIC), he brings a wealth of experience to the table. He has not only held the positions of Head of Departments in Electronics & Telecommunication Engineering, Computer Engineering, and Information Technology but has also made significant contributions through paper publications, product development, and guidance of numerous projects. His extensive expertise and multifaceted contributions were evident during the session on "Innovation/Prototype Validation – Converting Innovation into a Start-up"
No of Attendee	41
Date:	7 th August 2023
Outcome	Participants gained insights into the skills and tools they need to create and refine robust business models, thus establishing a solid foundation for their entrepreneurial journeys.

Report on Industrial Visit to Mahagenco, Nashik

Date of Visit: 15th February, 2024

Venue: Nashik Thermal Power Station (Mahagenco)

The industrial visit to Mahagenco in Nashik was organized by A.C. Patil College Of Engineering. The purpose of the visit was to provide students with practical insights into the operations and processes of a power generation company, and to understand the various facts of the power generation industry. Mahagenco is a prominent power generation company located in Nasik, Maharashtra. Established in 1970, Mahagenco has been a key player in the energy sector, contributing significantly to the power supply in the region. The company utilizes a mix of conventional and renewable energy sources to generate electricity, including thermal, hydro, and solar power.

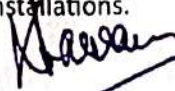

Nashik Thermal Power Station (Mahagenco)

We left from Kharghar to Nasik early in the morning by 7.30. By picking up student for their given pick up location we reached the site at around 12 o'clock. We entered the premises after having our lunch, id cards & the safety gears were handed over to each student. The visit commenced with an introductory session where representatives from Mahagenco provided an overview of the company's history, mission, and core operations. This session helped in understanding the significance of Mahagenco in the energy landscape of Maharashtra.

Students were taken on a comprehensive tour of Mahagenco's power generation facilities. This included visits to the thermal power plants, hydroelectric plants, and solar power installations.

Workshop on 'Electromagnetic waves software tool – TaraNG'

Introduction:

Electromagnetic Fields and Microwave Engineering are two courses of Electronics Engineering which includes the complex concepts of physics and their implementation in the form of Electromagnetic Waves, Microwaves etc. Alongwith the complex concepts, the courses also involve analytical treatment making them very difficult.

In the academic year 2023-24, Government College of Engineering, Amravati has implemented it's new curriculum for third year. 'Electromagnetic Waves' and 'Electromagnetic Waves Lab' are the part of new implemented curriculum.

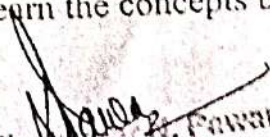

'Electromagnetic waves software tool – TaraNG' is a platform which will help the students to visualise and understand the complicated concepts of Electromagnetism. It also helps to develop analysing and problem solving capabilities in students.

Keeping this in mind, Department of Electronics Engineering arranged a 'Workshop on 'Electromagnetic waves software tool – TaraNG' on 1st March 2023 for the final year students. The resource person for the workshop, Mr. Swapnil Gaul, conducted the sessions on the TaraNG.

Mr. Swapnil Gaul has completed Masters from IIT Kharagpur during 2011-2013 with specialization in RF & Microwave. He completed his dissertation work on Computational Electromagnetic & Numerical Techniques under the guidance of Prof. Ramesh Garg.

While working as teacher's assistant, he had to carry out lab sessions and demonstrate the software present in their lab to undergraduate students. Soon he realized that many students were uncomfortable using that simulation software. Mr. Swapnil identified the need of unified solution where the goal is not to learn the software but it is to learn the concepts by understanding those simulations.

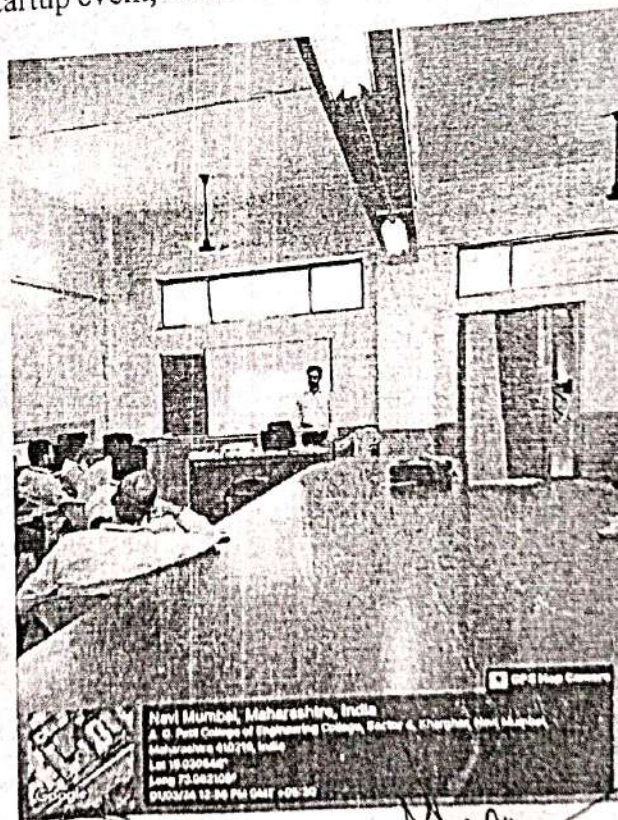

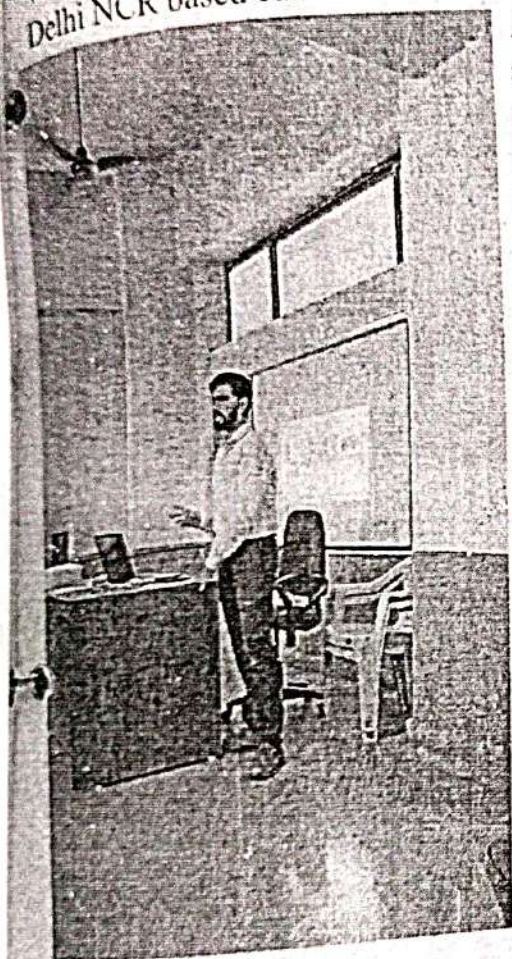

Dr. Vijay R. Pawar
B.E., M.E., Ph. D. (Tech)
Principal
A. C. Patil College of Engineering,
Kharghar, Navi Mumbai-410 210.

Mr. Swapnil developed the simulation packages which will allow hands-on based learning experience. He continued his masters project to make it in form of product and started a private limited company 'NUMEREGION' to commercialize the same to achieve the goals in a strategic manner.

With vision of making engineering education more hands-on based, NUMEREGION is Delhi NCR based education technology startup working in field of engineering simulations. According to technical mentors from IIT Mumbai, the software is the India's first engineering tool that will provide the simulation based hands-on learning especially in Engineering and Technology. The startup is supported by Department of Science and Technology under EIR scheme through which incubation support and fellowship is awarded. ISBA committee once referred to NUMEREGION to represent at Malaysia in one startup event, where he has got two medals for India.

Dear Mam/Sir,

The following is the schedule for the seminar to be conducted on 31st January, 2024 from 3pm onwards at your premises.

Seminar on AI & ML: Impact of AI on Jobs and Current Industry Trends

- Introduction of Expertrons & Speaker Mr. Milan Mapara
- **Insights Into the current Job Market**
- **Importance of upskilling**
- **Importance of building expertise**
- **Blueprint for building a successful career**
- **Identifying and overcoming common challenges**
- **Importance of Hands on Experience**
- **Closing remarks and session conclusion**

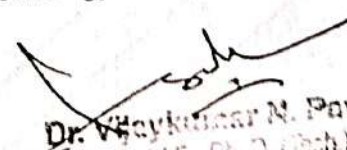

All the above points will be discussed with AI/ML and Data Science as the central theme. This schedule allows for a comprehensive exploration of the topic within the specified time frame. Adjustments can be made based on specific content, speakers, and audience engagement.

The following is the profile of the speaker on behalf of Expertrons:

Name: **Mr. Milan Mapara**

Profile: With a wealth of experience and knowledge, Mr. Mapara currently serves as the Head of Strategic Alliances at Expertrons, a position that underscores his deep understanding of the intricate dynamics within the AI/ML industry. His expertise extends across various domains, making him a trusted authority in the rapidly evolving landscape of technology. Mr. Milan
